

YCDSB Focus Programs 2011-2012

Program	What	Where	When	Why	How Much
CNC	A 3-credit grade 12 Manufacturing program for students interested in production robotics, including prototype design and production	Seneca College Jane Campus, 21 Beverly Hills Drive, Toronto (Jane and Wilson)	Semester 2, Monday to Friday, 12:30 – 3:00 pm. Contact Mr. Burley (905) 882-1460	This hands-on program provides a sound basis for students considering post secondary careers in engineering, robotics, design and prototype production. As well as 3 high school credits, successful students will also receive 2 College credits.	No Charge
Hairstyling	A 4-credit program for students considering a career in Hairstyling and Aesthetics. A double Hairstyling class is coupled to a 2 credit hairstyling coop placement	This program is available to students from all high schools . While the coop placement takes place through the student's home school, the in-school classes are offered at St. Joan of Arc, St. Maximilian Kolbe and Fr. McGivney.	Please contact the closest school for timetable details or call Mr. Cotton (905) 713-1211	This focus program offers students an early and economical opportunity to obtain a head start in the Hair Styling and Aesthetics industry. After completing the 4 credit package, students can write the Ontario Level One Apprenticeship test and continue in the workplace to complete certification requirements.	No Charge
Riviera Parque	A 4-credit coop program for students interested in all aspects of the Hospitality Industry	Riviera Parque Banquet Hall, Woodbridge, ON	Please contact your Guidance Dept. for more information or call Mr. Covre (905) 851-3259	This focus program prepares students for post-secondary studies or employment in the field of hotel and food administration.	No Charge
